

Dog Food Transition Chart

When switching foods please transition slowly to avoid digestive issues and upset stomach over the abrupt change in diet. We have found that the smoothest transition from one dog food to another is to simply mix the foods together. This process should usually take about seven days until you are feeding your dog 100% of the new food. You can increase the transition time if your dog is particularly sensitive to menu changes.

Puppy feeding schedule: ½ cup food 4x a day (every 4 hours)

DAYS 1 & 2

DAYS 3 & 4
